

Planned Outage Notification for Reliability Improvements

Communities of Lunenburg, Mahone Bay, and Riverport

On the evening of **Saturday, December 7**, our crews will be completing work related to the new power substation in Martins Brook that will help improve reliability of your power service. This work will require a planned power interruption overnight in order to be completed safely.

Residents in the communities of Lunenburg, Mahone Bay, and Riverport can expect a power interruption beginning at 11:00PM on Saturday evening and lasting for approximately eight hours.

We apologize for any inconvenience caused by the interruption in your power service and appreciate your patience as our crews complete this important work.

A map of impacted areas can be found at:
