

#12. TOWN OF LUNENBURG POLICY

TREE LIMB AND BRUSH PICK-UP AND DISPOSAL

1. The Town will deal with the tree limb and brush situation in the Town with the following procedure, keeping in mind, cost efficiency and the general appearance of the Town.
2. The Town will be responsible for collection of all limbs and brush from Town trees including trees trimmed by the Electric Light Department to clear lines whether located on Town property or not. This collection will be carried out on an as needed basis.
3. The Town will have one spring and three fall clean up days for leaves, limbs and other garden material and will co-ordinate the effort to collect limbs with the garbage collector. Brush should be placed on the shoulder of the road in small piles and limbs should be cut in 5 ft. lengths and tied together in bundles of less than 8" in diameter.
4. The Town will limit the amounts of limbs or brush collected to 3.0 cubic yards or a half ton truck load per household during the four clean up days. (All limbs and brush in excess of this amount will be the responsibility of the property owner.)
5. At all other times during the year limbs will have to be properly bundled to be collected by the garbage contractor or the property owner will be responsible to hire a private contractor to collect them.
