

## **Lunenburg Electric Utility Rate Cap Removal**

May 25, 2026

### **General Service (Business) Customers:**

As part of the Lunenburg Electric Utility rate application of 2025 the approved 17.8% for General Service Customers increase was phased in to reduce financial pressures. Effective August 1, 2026, the rate cap will be removed.

- 12.9% was applied October 1, 2025.
- 17.8% will be applied August 1, 2026, together with the deferred recovery.

The increases will fund essential capital investments to improve grid reliability, expand capacity, modernize the system to support future growth, meet climate resilience standards and fund operational costs.
